

Hyland
Communications
Limited

Oil & Gas Advisory Specialists

Hyland communications are management and consultancy specialists serving a wide client base in the international oil and gas arena.

The company was founded upon its knowledge of people, Contacts, techniques and Local business protocols throughout many regions of the worlds Oil and Gas sectors. Our focus is simple to Facilitate business for many smaller Companies wishing to seek or conduct business in any of the potential international Oil and gas markets.

Contract bidding can be time consuming and expensive for many companies with little or no local market knowledge. Local contract, government and legal requirements can often be the make or break point in deciding whether to participate in potential business opportunities.

From simple market intelligence and local business survey's to broad based supply and distribution channels, Hyland has an established track record in providing professional and effective services to its Global client base.

Whatever your product or need, if you are looking to expand or grow your business in the international oil and gas markets or simply need a second opinion or service contact Hyland Communications, if we cant help we can recommend someone that can.

Hyland Communication's understands the need for complete confidentiality, and has obtained a reputation for reliability, dependability and honesty, we provide our products and services to a broad client base, typical customers include but are not limited to the following:

- Major International Companies
- Private Organizations
- Local Engineering Consultancy Companies
- Service Companies
- Manufacturing Companies
- Individual Investors and Entrepreneurs

Hyland Communications has many years of experience through its own resources and a global network of associates in Facilitating Contract Bidding, tender preparation, local sourcing and bid submission in many of the international oil and gas locations.

Hyland Communication's has extensive experience and technical knowledge in the upstream oil and gas process control, instrumentation, and automation markets, this knowledge helps provide a deeper understanding of our clients products or services and their required positioning in the market or application

Hyland Communications offers the following products and services:

- Market Surveys
- Business or Product Strategies
- Contract Strategies
- International Business Start up assistance
- Material Supply and Procurement Services
- Supply Chain Management
- Local Distribution and Agency Establishment
- Product Representation
- Sales and Support Networking
- New Business Development

*The **knowledge** of local legislation and contract procedures is only one consideration, Hyland communications believes that **understanding** the markets and the products or services of our clients and their applications is **critical** to the credibility of what we do.*
